

**Time: 1 hour**

SECTION A

Question 1 (20 marks)

For each item, there is **ONE** correct answer. Draw a circle around the letter which shows the correct answer.

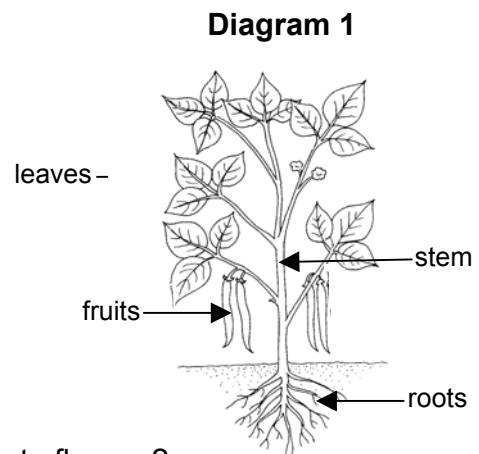

Example: A bird which has become extinct in Mauritius is the

- A** cardinal.
- B** pink pigeon.
- (C)** dodo.
- D** Mauritius parakeet.

1. **Diagram 1** shows a bean plant.

The seeds are found in the

- A** leaves.
- B** stem.
- C** fruits.
- D** roots.

2. Which **one** of the following insects helps to pollinate flowers?

- A** Cockroach
- B** Butterfly
- C** Housefly
- D** Mosquito

3. **Diagram 2** shows a pair of impermeable boots.

These boots are made of

- A** plastic.
- B** silk.
- C** sponge.
- D** wool.

Diagram 2

4. Tooth decay can be caused by consuming

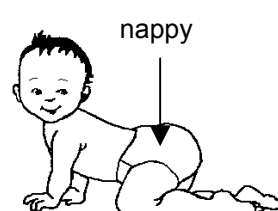

- A too much milk.
- B too much water.
- C too many sweets.
- D too many vegetables.

5. **Diagram 3** shows a baby in a nappy (*couche*).

Cotton is used to make the nappy because it

- A absorbs water.
- B dissolves easily.
- C is elastic.
- D is impermeable.

Diagram 3

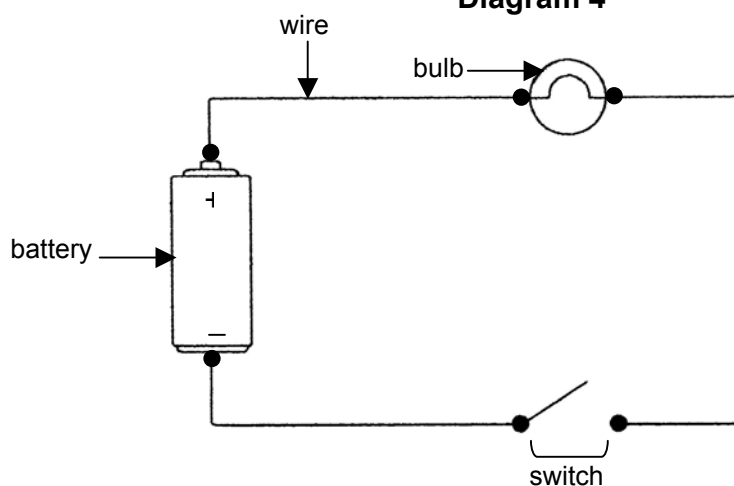

6. The different parts of an electric circuit are shown in **Diagram 4**.

Which **one** of the four parts provides chemical energy?

- A Bulb
- B Battery
- C Switch
- D Wire

Diagram 4

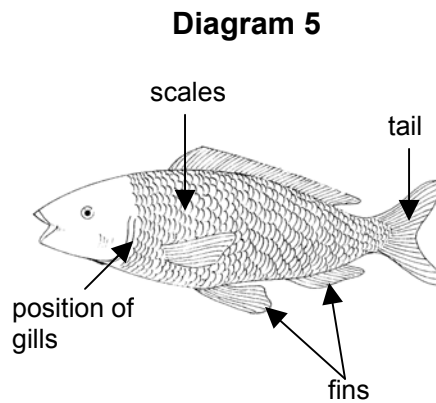

7. Which **one** of the following dissolves in water to form a solution?

- A Plastic beads
- B Glass beads
- C Rock sand
- D Glucose powder

8. **Diagram 5** shows a fish.
A fish breathes through its

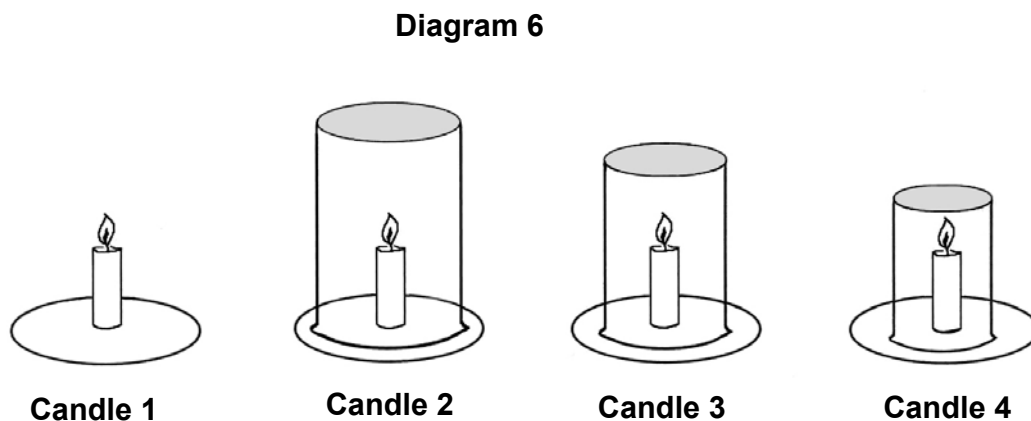

- A** fins.
- B** gills.
- C** scales.
- D** tail.

9. Mango is an example of a food for health.
One good example of a food for **growth** is

- A** milk.
- B** rice.
- C** sugar.
- D** watermelon.

10. **Diagram 6** shows four candles burning. Three of them are covered at the same time with jars of different sizes.

Which candle will burn for the **shortest time**?

- A** Candle 1
- B** Candle 2
- C** Candle 3
- D** Candle 4

Question 2A (20 marks)

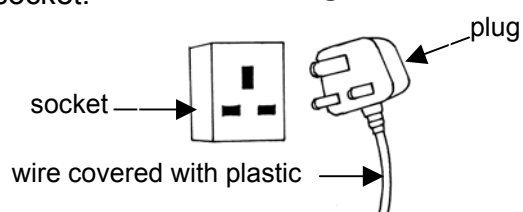

1. Fill in the blanks in sentences (a) to (d) using the correct word or words from the list given below.

air carbon dioxide chlorine detergent water

- (a) Excessive use of fertilisers causes pollution.
 (b) When a candle burns, a gas called is produced.
 (c) A gas called is added to water to make it safe for drinking.
 (d) We should reduce the amount of that we use at home to avoid pollution.

2. **Diagram 7** shows an electrical plug, wire and socket.

Diagram 7

- (a) Give **one** precaution to take when putting the plug into the socket.

.....

- (b) Why is the electrical wire covered with plastic?

.....

- (c) Why is it dangerous to touch broken electrical cables after a cyclone?

.....

- (d) Name **one** material that allows electricity to flow through it.

.....

3. (a) Name **one** source of energy that causes pollution.

.....

- (b) Name **one** source of energy that does **not** cause pollution.

.....

Question 2B (20 marks)

1. You have to prepare a vegetable salad **to eat later**.

(a) Give **two** precautions that you should take to prevent contamination of the salad by microbes.

(i)

.....

(ii)

.....

(b) Canning is a method of preserving food.

Give **one** other method of preserving food.

.....

(c) Canned food should be safe for eating.

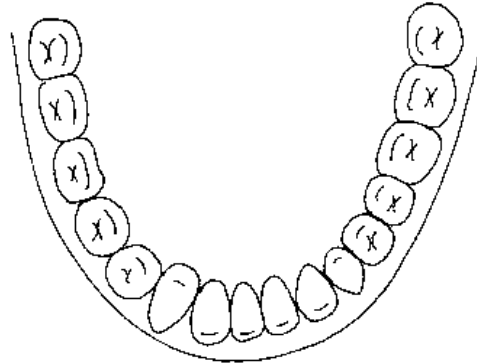

Give **one** precaution that you should take when buying canned food.

.....

.....

2. **Diagram 8** shows the teeth in the lower jaw of an adult person.

Diagram 8

The front teeth are sharp but the teeth at the back are flat.

- (a) Fill in the blanks in sentences (i) and (ii).

(i) The teeth are used to bite and cut food.

(ii) As a child grows older, his or her teeth fall out and are replaced by permanent teeth.

- (b) What will happen if you do not take care of your teeth?

.....

3. Animals have skin with different characteristics.

Draw a line to match each animal with the characteristic of its skin.

Animal	Characteristic of Skin
dog	shell
fish	feather
pigeon	hair
	scale

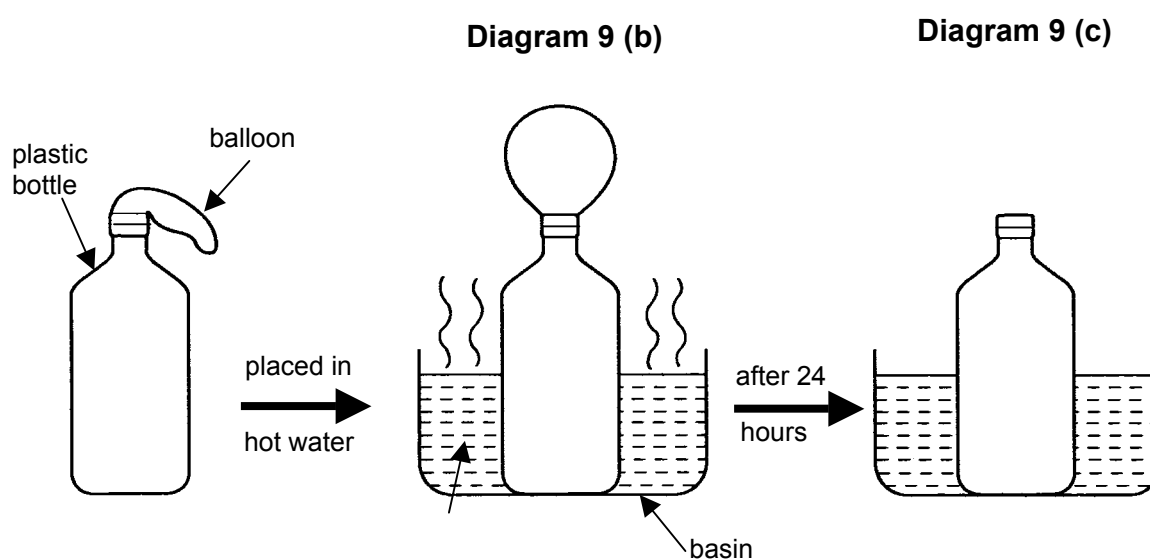

SECTION B

Question 3 (20 marks)

1. **Diagram 9 (a)** shows a balloon tied to an empty plastic bottle.

Diagram 9 (b) shows the plastic bottle placed in a basin of hot water.

Diagram 9 (c) shows the plastic bottle (the balloon is not shown) in the same basin after 24 hours.

- (a) What is present in the “empty” plastic bottle in **Diagram 9 (a)**?

.....

- (b) Why does the balloon become bigger in **Diagram 9 (b)**?

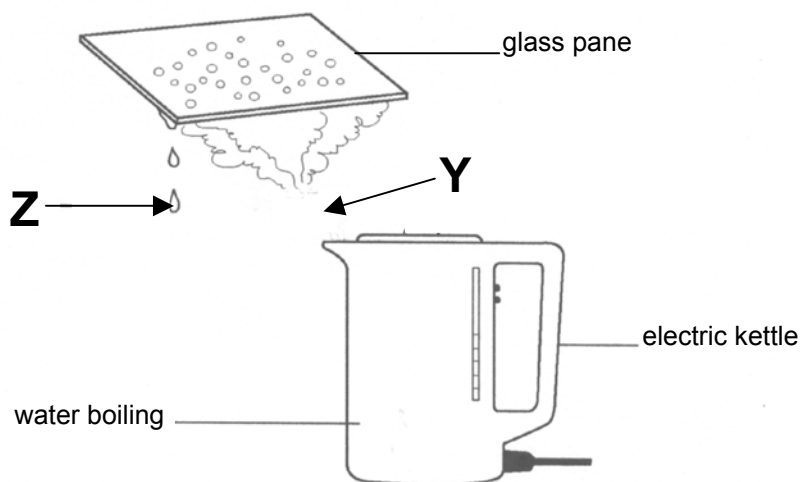

.....

.....

- (c) Complete the drawing in **Diagram 9 (c)** to show what happens to the balloon after 24 hours.

2. (a) Study **Diagram 10** which shows a glass pane held above an electric kettle in which water is boiling.

Diagram 10

(i) The invisible gas **Y** is

(ii) The liquid **Z** is

(iii) Name the process by which the liquid **Z** is formed.

.....

(b) Why do we need to drink more water in hot weather?

.....

.....

3. Plants make their food from water and carbon dioxide, using energy from sunlight.

(a) This process is called

(b) Give **two** reasons why plants are important for animals to survive.

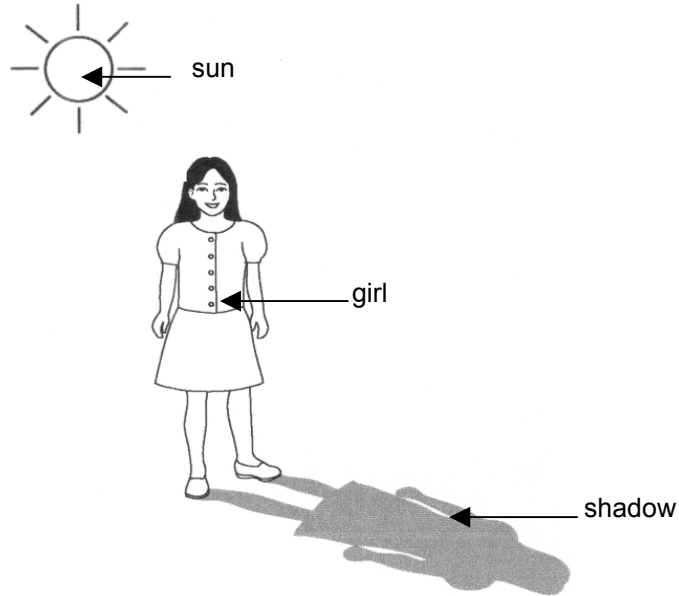

(i)

(ii)

Question 4 (20 marks)

1. **Diagram 11** shows a girl and her shadow at three o'clock in the afternoon.

Diagram 11

- (a) Why is a shadow of the girl produced?

.....

.....

- (b) Explain why the shadow takes the **shape** of the girl.

.....

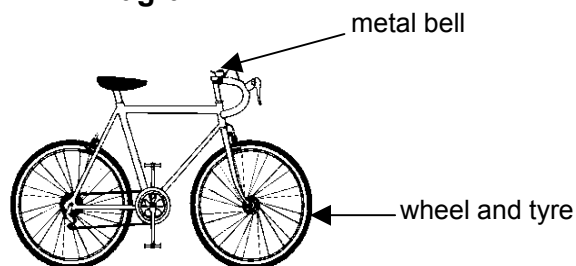

.....

- (c) Name **one** material that does not produce a shadow.

.....

2. **Diagram 12** shows a bicycle.

Diagram 12

- (a) Name **one** material which is suitable to make bicycle tyres.

.....

- (b) Some bicycles have wheels made of aluminium.

Give **two** advantages of using aluminium, instead of steel, for bicycle wheels.

(i)

(ii)

- (c) The rider of this bicycle rings the metal bell.

- (i) Complete the sentence below.

Inside the bell, energy is transformed
into energy.

- (ii) Explain how the sound is produced by the bell.

.....

.....

- (iii) Explain how the sound produced by the bell reaches our ears.

.....

.....
