

The Certificate of Primary Education Examination
October 2010

(Subject Code No. 141)

For Markers' Use Only

1. Check that this question paper contains 4 questions printed on 10 pages numbered 2, 3, 4, 5, 6, 7, 8, 9, 10 and 11.
2. Write your Index Number on the question paper in the space provided above.
3. You should not use red ink in answering questions.
4. Write all your answers clearly on the question paper.
5. Attempt all questions.

10004

SECTION A

Question 1 (20 marks)

For each item, there is **ONE** correct answer. Draw a circle around the letter which shows the correct answer.

Example: Which **one** of the following is an insect?

- ☒ **A** Butterfly
- ☐ **B** Dog
- ☐ **C** Lizard
- ☐ **D** Pigeon

1. How many permanent teeth does an **adult** have in all?

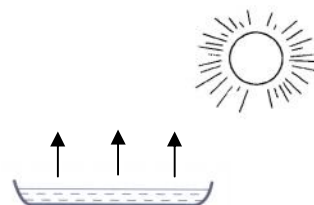

- ☐ **A** 8
- ☐ **B** 20
- ☐ **C** 32
- ☐ **D** 40

2. **Diagram 1** shows water evaporating from a dish.

Which **one** of the following is **formed** when water evaporates?

- ☐ **A** Fresh water
- ☐ **B** Ice
- ☐ **C** Solution
- ☐ **D** Water vapour

Diagram 1

3. What is the function of the **seed** in a plant?

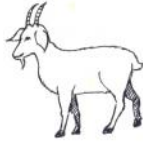

- ☐ **A** It carries out photosynthesis.
- ☐ **B** It germinates to produce a new plant.
- ☐ **C** It carries water from roots to leaves.
- ☐ **D** It holds the plant in the soil.

4. **Diagram 2** shows different animals.
Which **one** of these animals lives in water?

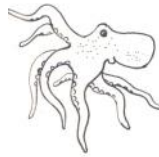

Diagram 2

Butterfly

Goat

Octopus

Sparrow

- A** Butterfly
B Goat
C Octopus
D Sparrow
5. Which forms of energy are obtained from the sun?
- A** Heat and Light
B Heat and Movement
C Movement and Chemical
D Sound and Light
6. Which **one** of the following is a property of air?
- A** It contracts on heating.
B It contracts on cooling.
C It expands on cooling.
D It is made up of carbon dioxide and water vapour only.
7. What should you do regularly at night before going to sleep?
- A** Brush your teeth
B Consume fizzy drinks
C Eat sweets
D Wear tight clothes

8. Which type of material allows only **some** light to pass through it?
- A** Man made
 - B** Opaque
 - C** Translucent
 - D** Transparent
9. Which **one** of the following materials is usually used to make kitchen utensils?
- A** Paper
 - B** Wool
 - C** Silk
 - D** Stainless steel
10. A tree is a living thing.
Which **one** of the following is a characteristic of a living thing?
- A** It breathes.
 - B** It gives shade.
 - C** It is green.
 - D** It moves in the wind.

Question 2A (20 marks)

1. Complete the sentences (a) to (c) using the suitable word from the list.

salad carbohydrate heavy balanced protein

(a) The nutrient which gives us energy for our daily activities is

(b) To be in good health we should eat meals.

(c) The food that helps us to grow up well contains

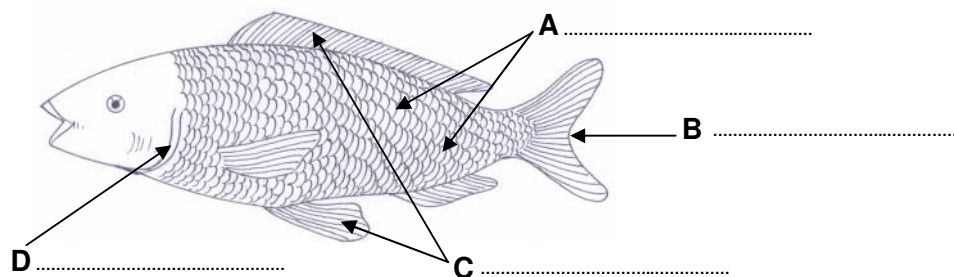

2. Draw a line to match the animals with the product they provide.

Name of animals	Product provided by the animals
sheep	honey
bees	silk
hens	eggs
	wool

3. Diagram 3 shows a fish.

Label the parts **A**, **B**, **C** and **D** of the fish.

Diagram 3

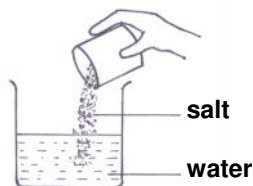

Question 2B (20 marks)

1. **Diagram 4** shows a glass of water.

Some salt is added to the water. It is then stirred for several minutes.

Diagram 4

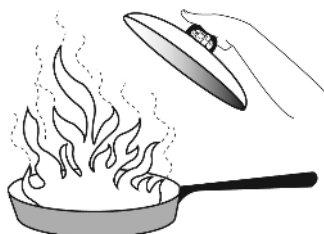

What happens to the salt after stirring?

.....

2. (a) Oil burning in a frying pan is covered as shown in **Diagram 5**.

Diagram 5

- (i) What will happen to the flame?

.....

- (ii) Explain why.

.....

- (b) Give **two** other ways of extinguishing **any** flame.

- (i)

.....

- (ii)

.....

3. Observe the **Diagrams 6(a) and 6(b)** given below. Water is being poured on the two materials **A** and **B**.

Diagram 6(a)

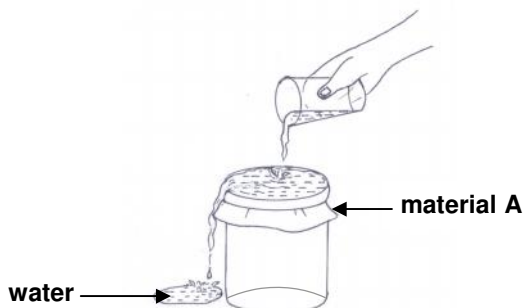

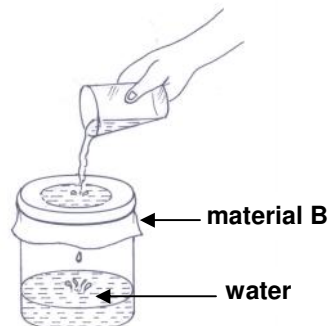

Diagram 6(b)

- (a) What type of materials are material A and material B?

Material A:

Material B:

- (b) Give **one** example of **material A** and **one** example of **material B**.

Material A **Material B**

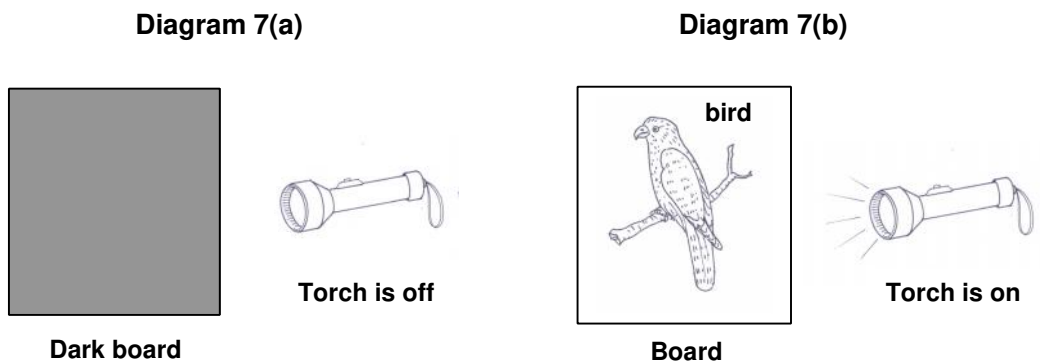

- (c) If you have to make an umbrella, which of material **A** or **B** would you use?

.....

SECTION B

Question 3 (20 marks)

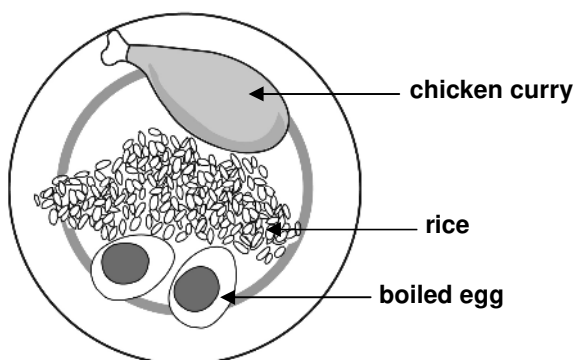

1. Study the **Diagrams 7(a) and 7(b)** below. When the torch is off, the board looks dark but when the torch is switched on, a picture of a bird is seen on the board.

- (a) What does the above diagram show about the importance of light?
-
-
- (b) If an opaque object is placed in front of the torch when it is switched on, we will not see the bird on the board. Explain why.
-
-
2. (a) Name a source of energy that will not cause pollution when used.
-
- (b) When we burn fossil fuel, they are completely used up.
- This is why fossil fuel is called a source of energy.
- (c) Give one use of fossil fuel in our everyday life.
-

3. **Diagram 8** shows a dinner plate containing a boiled egg, some rice and chicken curry.

Diagram 8

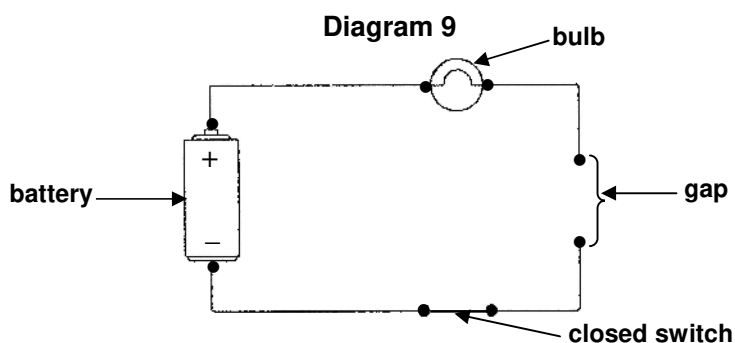

- (a) Which group of food is missing in the plate?

.....

- (b) Which food would you remove from the plate to make the meal more healthy?

.....

4. **Diagram 9** below shows an electric circuit and the switch is **closed**.

- (a) Why does the bulb **not** light up?

.....

.....

- (b) A piece of aluminium is used to close the gap in the circuit. What will happen to the bulb?

.....

- (c) Give the name of a material that can be used as an insulator.

.....

Question 4 (20 marks)

1. (a) What is an omnivore?

.....

.....

- (b) Give **one** way in which a cow is useful to humans.

.....

.....

- (c) The Kestrel is a rare bird in Mauritius. Give **one** measure taken to protect rare birds in Mauritius.

.....

.....

2. (a) Give **one** measure that can be taken by farmers to avoid water pollution.

.....

.....

- (b) Give **one** way that water can be polluted by factories.

.....

.....

- (c) Give **one** harmful effect of water pollution to the **aquatic** animals.

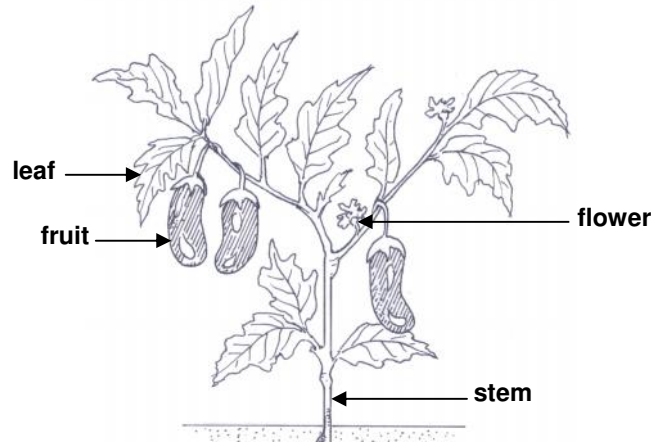

.....

.....

3. **Diagram 10** shows an incomplete plant.

(a) Draw and label the missing part of this plant.

Diagram 10

(b) Give **one** function of the flower.

.....

4. **Diagram 11** shows a coral bed under the sea.

Diagram 11

(a) Give **one** reason why corals are absent at the mouth of a river.

.....

.....

(b) Give **one** effect of removing too much sand from the sea bed.

.....

.....
