SECTION A

Question 1 (20 marks)

For each item, there is **ONE** correct answer. Draw a circle around the letter which shows the correct answer.

Example: A bird which has become extinct in Mauritius is the

A Cardinal.

B Pigeon.

C Dodo.

D Sparrow.

1. Which **one** of the following is a carnivorous animal?

A Goat

B Pigeon

C Deer

D Lion

2. Which gas found in the air is used by animals to produce energy?

A Nitrogen

B Oxygen

C Water vapour

D Carbon dioxide

3. **Diagram 1** shows some oil on fire in a cooking pan.
Which **one** of the following is the best way to put out the fire?

A Throw water in the pan

B Throw petrol in the pan

C Place a metal lid on the pan

D Place a plastic lid on the pan

Diagram 1

4. **Diagram 2** shows some vegetables and fruits.
These food items are good for health because they contain mostly

- A** vitamins and minerals.
- B** proteins and minerals.
- C** carbohydrates and fats.
- D** fats and proteins.

Diagram 2

5. Which **one** of the following metals will rust when exposed to air and water?

- A** Aluminium
- B** Iron
- C** Copper
- D** Silver

6. **Diagram 3** shows a cow grazing.
The grass provides the cow with

- A** energy.
- B** shade.
- C** shelter.
- D** sunlight.

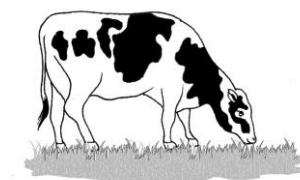

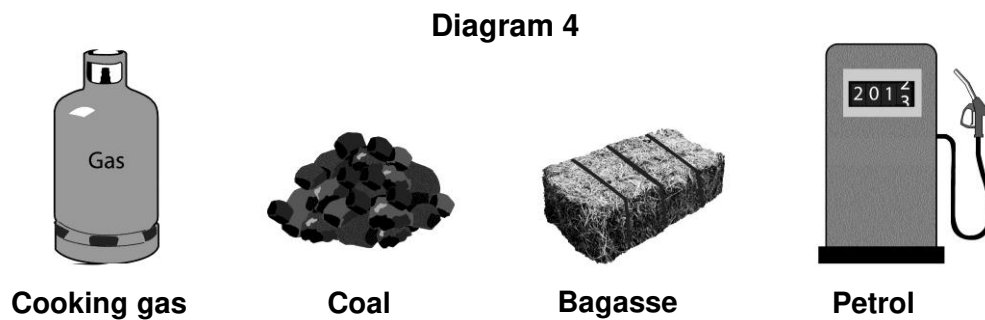

Diagram 3

7. The process by which a seed develops into a new plant is known as

- A** respiration.
- B** pollution.
- C** photosynthesis.
- D** germination.

8. **Diagram 4** shows different sources of energy.
Which **one** is a renewable source of energy?

- A** Cooking gas
B Coal
C Bagasse
D Petrol
9. Which **one** of the following is **not** a method of preserving food?
- A** Pickling
B Canning
C Salting
D Boiling
10. Which **one** of the following animals has gills?
- A** Whales
B Fish
C Dolphins
D Turtles

Question 2A (20 marks)

1. Fill in the blanks in sentences (a) to (d) using the correct word from the list.

contamination incisors plaque balanced fluoride

(a) The front teeth used for cutting food are known as

(b) Tooth decay is caused when the enamel of the teeth is weakened by

.....

(c) A meal that contains the right amount of food items from the three food groups is a meal.

(d) Food should be kept covered to protect it from

2. Draw a line to match the items in columns **A** and **B**.

Column A (Animal)	Column B (Group)
Snake	Bird
Shark	Insect
Elephant	Fish
Butterfly	Reptile
	Mammal

3. (a) Name **one** endemic bird found in our forests.

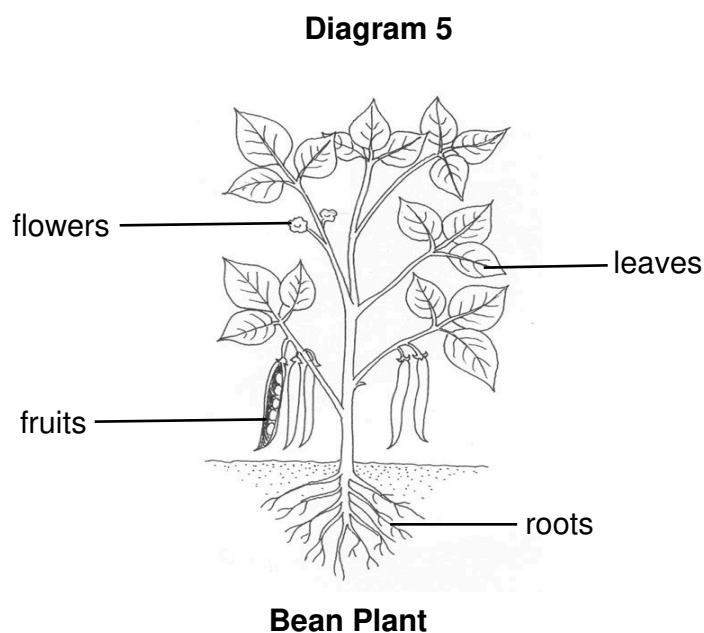

.....

(b) Name **one** endemic plant found in our forests.

.....

Question 2B (20 marks)

1. **Diagram 5** shows a bean plant.

- (a) Which part of the bean plant is commonly used as food by man?

.....

- (b) Which part of the plant manufactures its food?

.....

- (c) Give **two** functions of the roots.

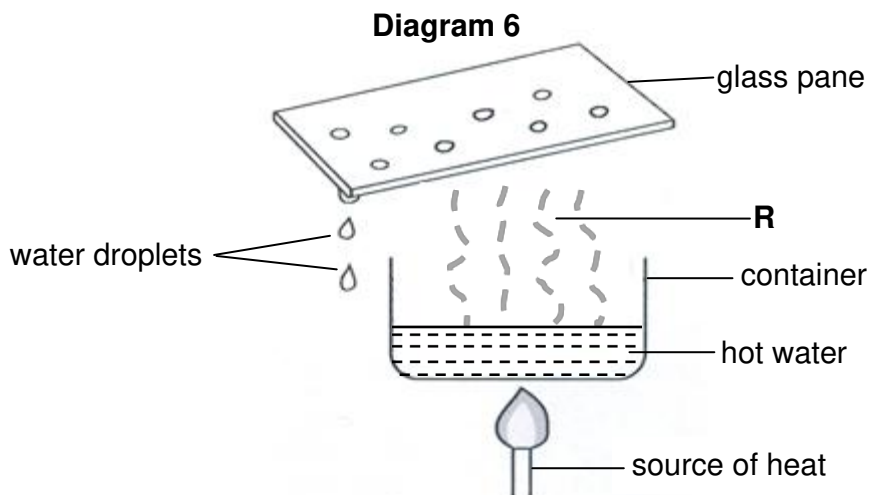

- (i) Function 1:

.....

- (ii) Function 2:

.....

2. **Diagram 6** shows water being heated in a container.
A glass pane is held above the container as shown.

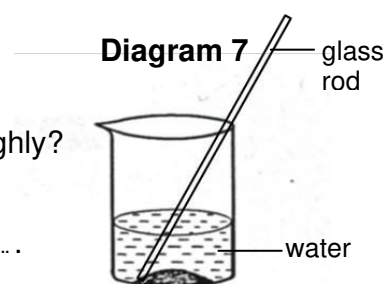

- (a) What is the state of water at **R**?
.....
- (b) Droplets of water are formed on the lower side of the glass pane.
Name the process by which the water droplets are formed.
.....
- (c) Give **one** physical property of water.
.....
3. **Diagram 7** shows a beaker containing water and a mixture of salt and sand.

- (a) Which component of the mixture will be left at the bottom of the beaker after the water is stirred thoroughly?
.....

- (b) The water has dissolved one component of the mixture
to form a

- (c) Which process may be used to obtain the **dissolved** part back?
.....

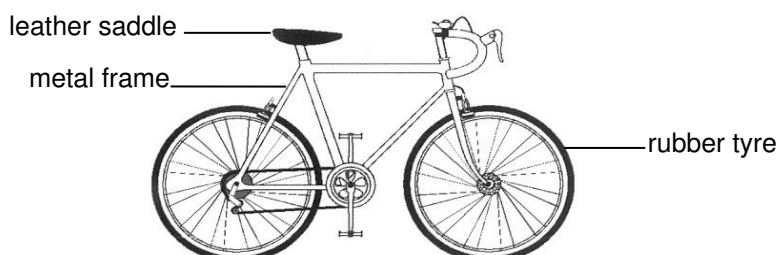

SECTION B

Question 3 (20 marks)

1. **Diagram 8** shows a bicycle.

Diagram 8

- (a) (i) Which part of the bicycle is made from a material obtained from a plant?

.....

- (ii) Which part of the bicycle is made from a material obtained from an animal?

.....

- (b) (i) Which metal is most suitable for the frame of the bicycle?

.....

- (ii) Give **one** advantage of using this metal to make the frame.

.....

2. (a) Give **one** source of air pollution.

.....

- (b) How does air pollution affect plants?

.....

- (c) Give **one** way to prevent water pollution in a river.

.....

3. **Diagram 9** shows objects made from different materials.

Diagram 9

- (a) Which **one** of these objects is made from a natural material?

.....

- (b) Why is glass used to make window panes?

.....

- (c) Why is plastic used to make raincoats?

.....

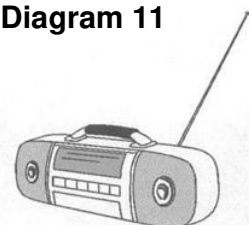

Question 4 (20 marks)

1. **Diagram 10** shows **child A** running and **child B** sleeping.

Diagram 10**Child A****Child B**

- (a) Which child is using up more oxygen?
.....
- (b) Why is it not safe to sleep in a room with all the doors and windows closed?
.....
- (c) Which gas do both children **exhale** when they breathe?
.....

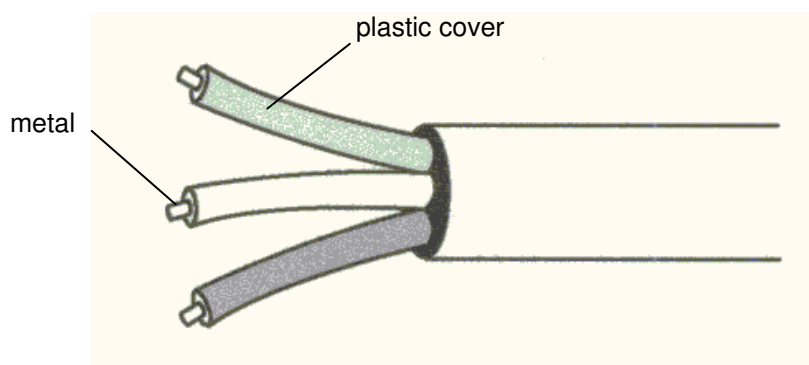

2. **Diagram 11** shows a radio.

Diagram 11

- (a) Which form of energy is used to run the radio?
.....
- (b) Which energy transformation takes place in the radio when it works?
.....
- (c) Which energy transformation takes place in a hydro-power station?
.....

3. **Diagram 12** shows an electric cable with three electric wires.

Diagram 12

Electric cable

- (a) What is the function of the plastic cover?

.....

- (b) Name a metal that is commonly used to make electric wires.

.....

- (c) Why is this metal used to make electric wires?

.....

- (d) State a precaution which you should take when using an electrical appliance.

.....
