

Time: 1 hour

SECTION A

Question 1 (20 marks)

For each item, there is **ONE** correct answer. Draw a circle around the letter which shows the correct answer.

Example: A bird which has become extinct in Mauritius is the

- A** Cardinal.
- B** Pigeon.
- C** Dodo.
- D** Sparrow.

1. Which one of the following is a food item obtained directly from **plants**?

Diagram 1

Eggs

Rice

Honey

Yoghurt

- A** Eggs
 - B** Rice
 - C** Honey
 - D** Yoghurt
2. Name the gas that is **not** present in air.
- A** Chlorine
 - B** Oxygen
 - C** Carbon dioxide
 - D** Water vapour
3. An example of a **soft** sound is the
- A** sound of a flying aeroplane.
 - B** sound of fire crackers.
 - C** sound of a bird singing.
 - D** sound of thunder during a storm.

4. Which one of the following is a method used to preserve food?

- A Heating
- B Covering
- C Washing
- D Pickling

5. Which of the following materials is **man-made**?

- A Coral
- B Rock
- C Plastic
- D Sand

6. **Diagram 2** shows different types of animals. Which one is an **insect**?

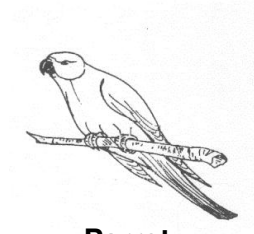

Diagram 2

Hen

Bat

Parrot

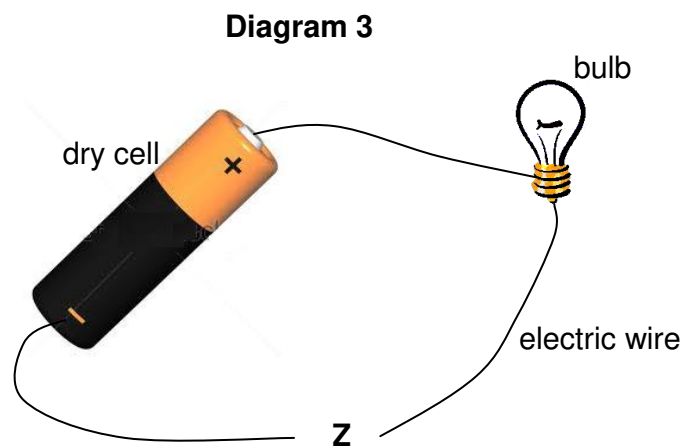

Bee

- A Hen
- B Bat
- C Parrot
- D Bee

7. Which of the following describes a characteristic of living things?

- A All living things reproduce.
- B All living things are green.
- C All living things produce their own food.
- D All living things move from one place to another.

8. **Diagram 3** shows an electric circuit with a gap at point **Z**.

Which of the following objects will cause the bulb to light up when used to close the gap at point **Z**?

- A** A rubber eraser
 - B** A metallic pin
 - C** An elastic band
 - D** A wooden ruler
9. Which of the following sources of energy is extracted from the Earth?
- A** Bagasse
 - B** Wood
 - C** Ethanol
 - D** Coal
10. Which one of the following statements is **false**?
- A** Light allows us to see.
 - B** Animals need light to produce food.
 - C** Light is a form of energy.
 - D** The sun is a source of light.

Question 2A (20 marks)

1. Complete sentences (a) to (d) using the correct word from the list.

reptile herbivorous fish mammal carnivorous

- (a) A has hairs on its body.
- (b) Gills help to breathe.
- (c) A deer is a animal.
- (d) A snake is a which has scales on its body.

2. Read the sentences below and write whether they are **True** or **False** in the given boxes.

- (a) Water turns into ice during condensation.

- (b) Water turns into water vapour during evaporation.

3. Draw a line to match each picture in column **A** to the transformation of energy in column **B**. An example is given.

Column A	Column B
A lamp 	Movement to Electrical
An iron 	Electrical to Light
A battery operated radio 	Sound to Electrical
A wind turbine 	Chemical to Sound
A boy running 	Chemical to Movement
	Electrical to Heat

Question 2B (20 marks)

1. **Table 1** describes two types of breakfasts, **A** and **B**.

Table 1

A	B
• 2 slices of bread • butter • a cup of milk • 2 chicken sausages • 2 slices of cheese	• one bowl of cereal • a cup of milk • one boiled egg • one cup of yoghurt • an apple

- (a) Name one food item in **A** which is an energy giving food.

.....

- (b) Name one food item in **B** that contains mainly proteins.

.....

- (c) (i) Which one of **A** or **B** is a balanced meal?

.....

- (ii) Give a reason for your answer.

.....

.....

- (d) Apart from eating a balanced meal, suggest **one** good habit to stay in good health.

.....

2. Study and complete **Table 2**.

Table 2

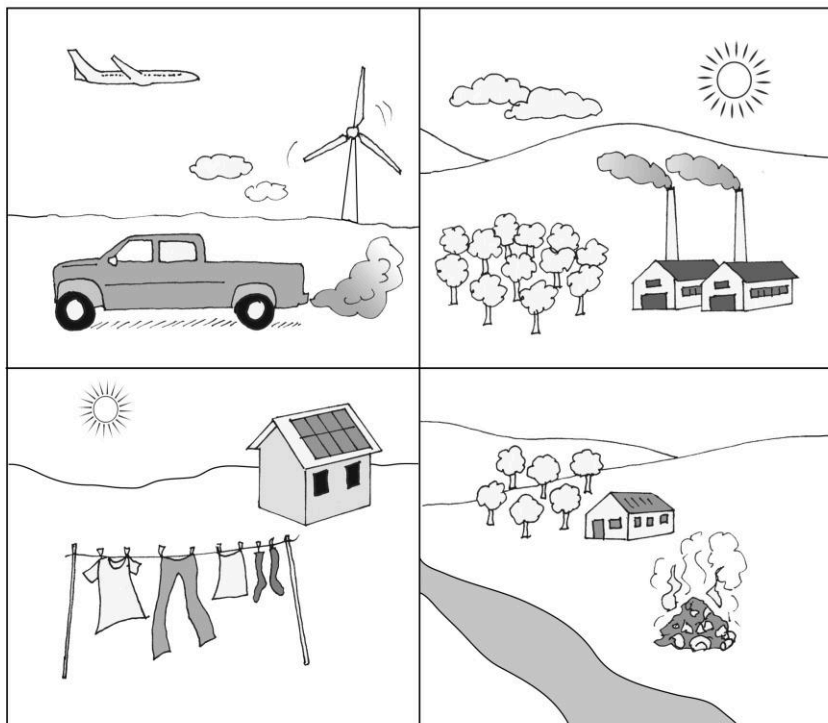

Objects	Material used to make the object	Why is this material used?
aeroplane		It is light.
knife	stainless steel	
car tyre		It absorbs shock.
jacket	leather	
shirt		It absorbs sweat.

SECTION B

Question 3 (20 marks)

1. Study **Diagram 4** and answer the questions that follow.

Diagram 4

- (a) Give **two** sources of air pollution shown in the diagram.

(i)

(ii)

- (b) Suggest **two** ways in which air pollution may be avoided.

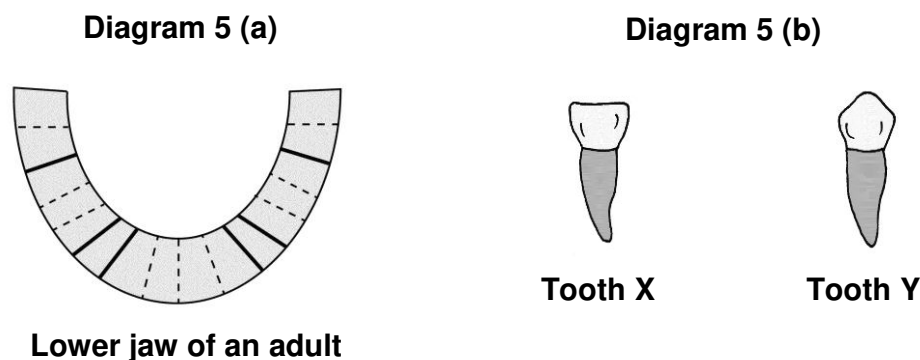

(i)

.....

(ii)

.....

2. **Diagram 5 (a)** shows the lower jaw of an adult without its teeth. **Diagram 5 (b)** shows two different types of teeth.

- (a) Draw a line from tooth **X** to the jaw in **Diagram 5 (a)** to show its location on the jaw.
- (b) Give the name of tooth **Y**.
-
- (c) Give the name of the tooth that is **not** found in the jaw of a child who is 3 years old.
-
- (d) Suggest **one** way to prevent tooth decay.
-
-
3. (a) What is the name given to objects that **do not** produce shadows in the presence of light?
-
- (b) Shadows are formed when some materials are kept in front of a source of light. Explain why.
-
-

Question 4 (20 marks)

1. (a) Give **two** ways in which water may be polluted.

(i)

.....

(ii)

.....

(b) Why should water from reservoirs be filtered before they are distributed to houses?

.....

.....

(c) Suggest **one** way in which we can avoid wastage of water.

.....

.....

2. (a) Which gas is mainly released when fossil fuels are burnt?

.....

(b) A consequence of Global Warming is a rise in the sea level.

Suggest **one** harmful effect of a rise in the sea level.

.....

.....

3. (a) Name the part of a plant that germinates to produce new plants.

.....

- (b) Give **two** functions of the stem of a plant.

- (i) **Function 1:**

.....

- (ii) **Function 2:**

.....

- (c) Explain how plants help to maintain the composition of air.
