SECTION A

Question 1 (20 marks)

For each item, there is **ONE** correct answer. Draw a circle around the letter which shows the correct answer.

Example: The Earth is a

A space.

(B) planet.

C star.

D moon.

1. Bees help plants by carrying out

A evaporation.

B germination.

C pollination.

D respiration.

2. **Diagram 1** shows water in a container.

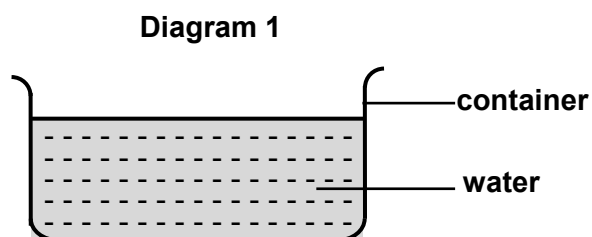

Which **one** of the following will produce air bubbles when placed in the water?

A A new nail

B Dry soil

C An eraser

D A new coin

3. Making compost is one way of using

A waste from plants.

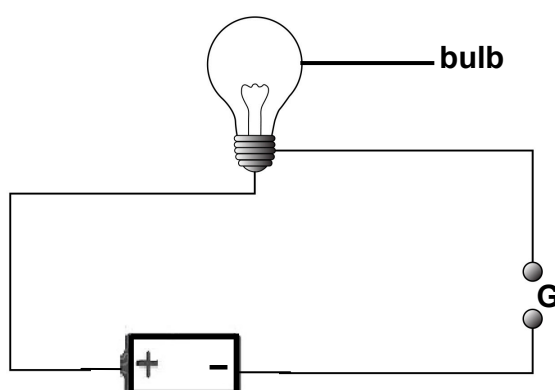

B plastic materials.

C pieces of metals.

D waste from textiles.

4. During the day, plants produce oxygen by using energy from the
- A** air.
 - B** soil.
 - C** wind.
 - D** sun.
5. In which **one** of the following situations is movement energy converted into sound energy?
- A** A cell being used in a torch.
 - B** A car parked in a garage.
 - C** A boy playing the guitar.
 - D** A solar panel used to heat water.
6. Study **Diagram 2**. It shows an electric circuit with a gap at **G**.

Diagram 2

An object is placed at **G** to close the gap. The bulb does **not** light.

The object placed at **G** could be made of

- A** iron.
 - B** aluminium.
 - C** copper.
 - D** plastic.
7. Rocks are used to make roads because they are
- A** elastic.
 - B** heavy.
 - C** opaque.
 - D** hard.

8. **Diagram 3** shows rain water being collected in water tanks.

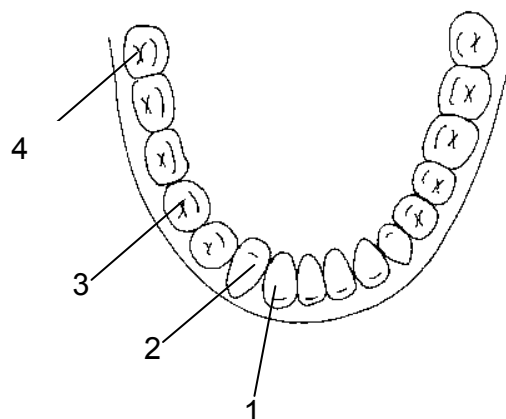

Diagram 3

Collecting and using rain water is one way of preventing

- A** mosquitoes from breeding.
 - B** wastage of water.
 - C** water pollution.
 - D** soil erosion.
9. Vegetables and fruits are rich sources of
- A** vitamins.
 - B** proteins.
 - C** fats.
 - D** carbohydrates.
10. Which number (1, 2, 3 or 4) in **Diagram 4** shows a tooth used for tearing food?

Diagram 4

- A** 1
- B** 2
- C** 3
- D** 4

Question 2A (20 marks)

1. Complete sentences (a) to (d) with the correct word from the list below.

nylon leather silk rubber cotton

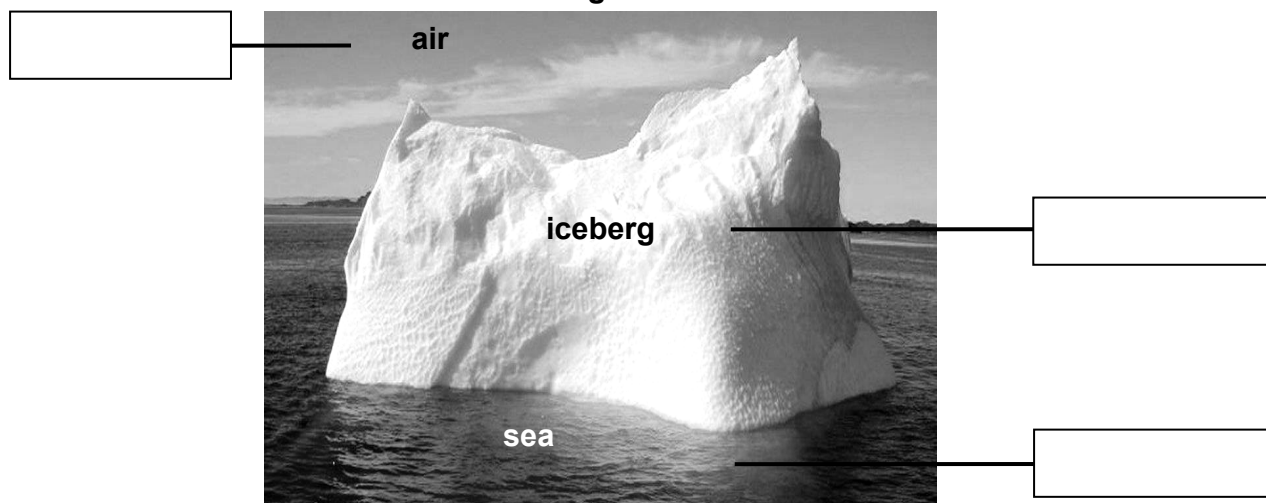

- (a) The skin of snakes and crocodiles is used to make
- (b) A material that absorbs sweat is
- (c) An animal by-product used to make fabric is
- (d) A man-made material used to make clothes is

2. **Diagram 5** shows the 3 states of water in nature.

Using the words from the list below, label the different states of water shown.

solid liquid gas

Diagram 5

3. Some sources of energy are renewable while others are not.

Complete the table below to show whether the sources listed are renewable or non-renewable. An example has been done for you.

Sources	Renewable / Non-Renewable
Sun	Renewable
Wind	
Petrol	
Bagasse	

Question 2B (20 marks)

1. **Diagram 6** shows some lighted candles on a birthday cake.

Diagram 6

- (a) Which gas is needed for the candles to burn?
.....
- (b) What is the **form** of energy **stored** in the candles?
.....
- (c) As the candles burn, they give out energy and
..... energy.
- (d) Which gas is produced by the burning candles?
.....

2. A balanced meal contains food from the **three** food groups.

Table 1 shows the food items in four meals (**A**, **B**, **C** and **D**).

Table 1			
Meal A	Meal B	Meal C	Meal D
Rice	Bread	Fish	Beans
Lentils	Cheese	Bread	Rice
Tomatoes	Butter	Lettuce	Fish

- (a) Which **two** meals, out of meals **A**, **B**, **C** and **D**, are balanced meals?
 and
- (b) Which **one** of the meals contains the most carbohydrates and fats?
- (c) Eating food containing too much fat can lead to obesity. Give **one** negative consequence of obesity on one's health.

- (d) Explain why a child's meal should contain more proteins than an adult's meal.

SECTION B

Question 3 (20 marks)

1. **Diagram 7** shows a truck. Study the diagram and answer the questions that follow.

- (a) The windshield is made of glass. Which characteristic of glass makes it suitable for this use?

.....

- (b) (i) Which metal could be used to make the container of the truck?

.....

- (ii) Give a reason for your answer.

.....

- (c) (i) Which material is commonly used to make tyres?

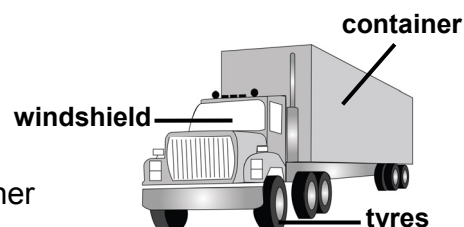

.....

- (ii) Why is the material you mentioned in part (c) (i) suitable to make tyres?

.....

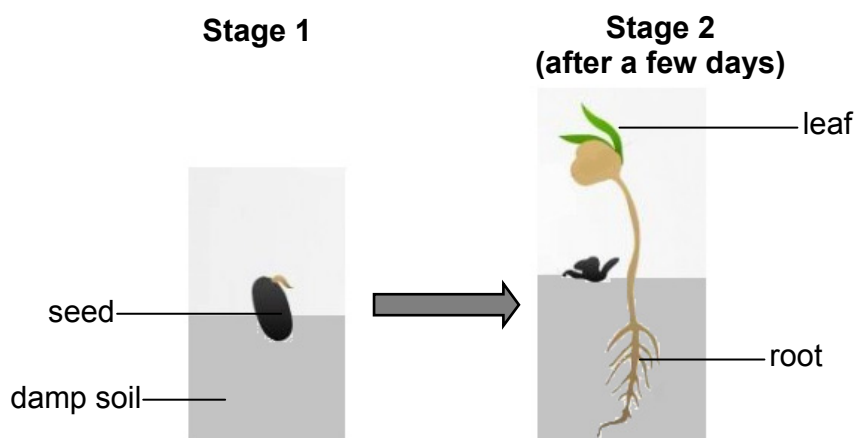

.....

Diagram 7

2. **Diagram 8** shows how a seed has developed into a young plant.

Diagram 8

Study the diagram carefully and answer the questions that follow.

- (a) The seed in **Stage 1** is planted in **damp** soil. Why should the soil be damp?

.....

.....

- (b) In **Stage 2**, the leaves of the plant have grown.

Give **one** way in which the leaves help the young plant to continue to grow.

.....

- (c) The roots hold the young plant firmly in the soil.

Give another function of the roots.

.....

.....

3. **Diagram 9** shows one source of air pollution caused by smoke from vehicles.

Diagram 9

- (a) Suggest **one** way how air pollution caused by vehicles can be reduced.

.....

.....

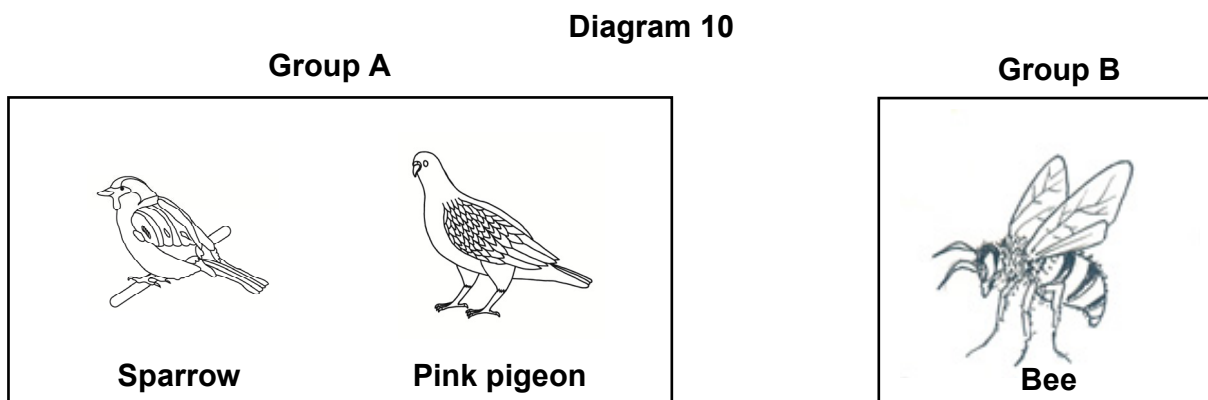

- (b) Give **one** way in which smoke from vehicles affects humans.

.....

.....

Question 4 (20 marks)

1. Kabir classifies a sparrow, a pink pigeon and a bee into 2 groups as shown in **Diagram 10**.

- (a) Give **one** characteristic which all the three animals have in common.

.....

- (b) Give a reason why Kabir classifies the animals into two different groups.

.....

.....

- (c) The pink pigeon is an endemic bird of Mauritius.

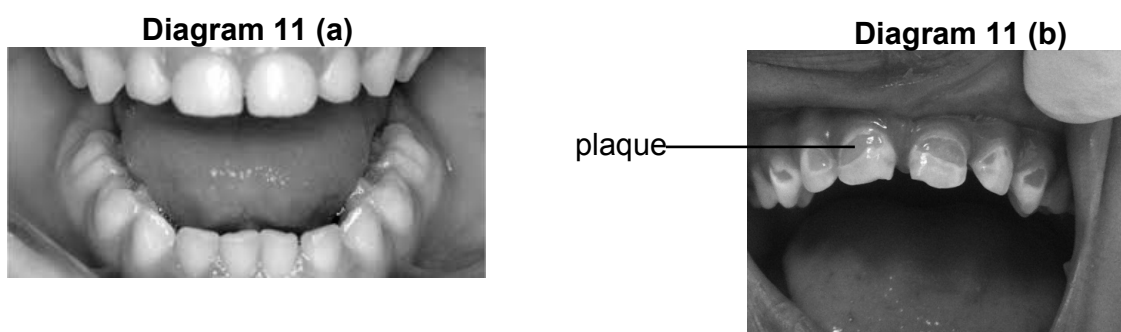

Explain why the pink pigeon has become rare.

.....

.....

2. **Diagram 11 (a)** shows a healthy set of teeth.

Diagram 11 (b) shows a set of teeth on which plaque has formed.

Study diagrams 11 (a) and 11 (b) carefully and answer the questions that follow.

- (a) How do we know that the set of teeth in **Diagram 11 (a)** is that of a child?

.....

- (b) Explain how plaque is formed.

.....

.....

- (c) How does plaque cause tooth decay?

.....

- (d) Give **one** way how tooth decay can affect a person.

.....

.....

3. As the world population grows, the global temperature also increases.

- (a) Give **one** reason to explain why an increase in the world population leads to an increase in the global temperature.

.....

.....

- (b) Give **two** ways how an increase in global temperatures can affect life on our planet.

- (i)

.....

- (ii)

.....
