Question 4A (10 marks)**Read the text below.****Dolphins**

Dolphins are intelligent and playful creatures. Most dolphins grow to be up to 3 metres long. They can be white, pink, grey, blue or black.

There are around 40 types of dolphins. Some types of dolphins live in oceans while others live in rivers. They can live in temperatures ranging from 0°C to around 30°C. Small dolphins can live for 30 years whereas large dolphins can live up to 80 years.

Dolphins eat aquatic animals such as fish and squid. They use some tricks to hunt for food. For example, they use their tail to hit fish to shock them, making them easier to catch.

Adapted from kids.britannica.com

Based on the text, complete the following:**Example:** This passage is about:**Dolphins**

1. One characteristic of dolphins:
2. Maximum length of most dolphins:
3. Two colours of dolphins: (i)
(ii)
4. Number of types of dolphins:
5. One place where dolphins live:
6. Minimum temperature in which dolphins can live:
7. Maximum lifespan of **small** dolphins:
8. One aquatic animal dolphins eat:
9. One trick that dolphins use to hunt for food:
.....

Question 4B (15 marks)

Read the text below.

Once upon a time, there was a girl named Ancy. She lived with her parents and two brothers. Ancy's family was poor. They often did not have enough money to buy food.

One day, Ancy's family learned that the King's son was seriously ill. Only the juice of a magic fruit could cure his illness, but no one knew where to find this fruit. "Whoever brings this magic fruit will be rewarded," announced the King.

Ancy's brothers thought they could try to bring the magic fruit from the forest. As a result, the King's reward would help the family to earn some money. Although their parents discouraged them, they insisted on going to the forest. Soon, the two brothers set off on their journey. They travelled for months but could not find the magic fruit. They were exhausted and had lost all hope of finding the magic fruit. So, they plucked a rare fruit from a tree and brought it to the palace.

Ancy's brothers presented the rare fruit to the King. They tried to squeeze the juice from the fruit, but in vain. It was too dry. The King frowned and shouted, "How dare you trick me! Throw them in prison!"

Ancy could not bear to see her brothers in prison. So, she decided to go in search of the magic fruit. It was the only way to get her brothers released from prison.

It took Ancy a whole day to reach the forest. When she was resting under a tree, she saw some parrots on the tree. The parrots were very hungry and could not find anything to eat. Although Ancy did not have much food on her, she decided to share whatever she had with them. The parrots enjoyed eating the nuts which Ancy fed them and could not thank her enough.

"What are you doing in this forest?" asked one parrot.

Ancy related what had happened and told the parrots that she had to find the magic fruit to save her brothers.

"You will never get there on your own. We know how to help you!" said the leader of the parrots. Together with his other friends, the leader flew away. They came back some minutes later with the ripe magic fruit.

Ancy rushed to give the magic fruit to the King. As soon as the sick Prince had a few drops of the juice from the fruit, he miraculously felt better. Ancy was overjoyed when her brothers were released from prison. The King rewarded Ancy, as promised. From then onwards, Ancy's family never lacked anything. Also, the Prince befriended Ancy and her brothers.

1. Indicate whether the following statements are True or False by ticking (✓) the correct boxes. [3]

	True	False
(i) Ancy had two brothers.	☐	☐
(ii) The King's son was not well.	☐	☐
