

**MINISTRY OF EDUCATION AND  
HUMAN RESOURCE**

**END-OF-YEAR ASSESSMENT 2025**

**NAME:** .....

**MATHEMATICS**

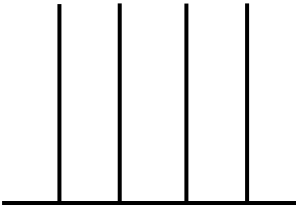

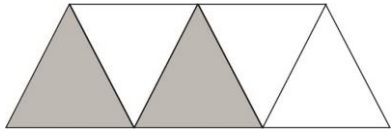

**GRADE 5**

**TIME: 1 hour 30 minutes**

**Instructions to Candidates**

1. Write your name in the space provided.
2. Check that this assessment booklet contains 40 questions, printed on 18 pages, numbered 2 to 19.
3. If there are blank pages or pages missing, you should inform the invigilator immediately.
4. You should not use red ink in answering questions.
5. Write all your answers clearly in the assessment booklet.
6. Attempt all questions.
7. The total marks for this paper is 100.

## SECTION A (60 marks)

|                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                 |

8. Complete the pattern.

16, 25, 36, \_\_\_\_\_ .

[1]

9. Rearrange in **descending order**.

680

927

341

352

Answer: \_\_\_\_\_ , \_\_\_\_\_ , \_\_\_\_\_ , \_\_\_\_\_  
largest smallest

[1]

10. Convert:

(a) 3 m into cm

Answer: \_\_\_\_\_ cm

[1]

(b) Rs 2.25 into cents

Answer: \_\_\_\_\_ cents

[1]

11. Complete the following.

(a)  $\frac{8}{12} = \frac{\boxed{\phantom{000}}}{3}$

[1]

(b)  $\frac{2}{7} + \frac{3}{7} = \frac{\boxed{\phantom{000}}}{\boxed{\phantom{000}}}$

[1]

17. Anna shares some sweets among 7 children.  
Each child gets 9 sweets.  
How many sweets does Anna share **in all**?

18. Feroz is 1 m 45 cm tall.  
Salim is 20 cm **taller**.  
What is the height of Salim?

**Answer:** \_\_\_\_\_ sweets [2]

**Answer:** \_\_\_\_\_ m \_\_\_\_\_ cm [2]

**For each question from numbers 19 to 28, circle the letter which shows the correct answer. Each question carries 1 mark.**

19. What is the value of  $20 + 6000 + 700 + 8$ ?

**A** 2678

**C** 6728

**B** 7268

**D** 6278

20. Convert  $1\frac{1}{4}$  hours into minutes.

**A** 65

**C** 90

**B** 75

**D** 95

21. What is the value of **7** in 5873?

**A** 7 units

**C** 7 hundreds

**B**      7 tens

**D** 7 thousands

22. The **area** of a square is  $36 \text{ cm}^2$ . What is the length of 1 side of the square?

**A** 12 cm

**C**      6 cm

**B** 9 cm

**D** 4 cm

23. Which coin or note is missing?

fifty-rupee note

=

twenty-five rupee note

+

twenty-rupee coin

+

\_\_\_\_\_

A fifty-rupee note

C ten-rupee coin

B twenty-five rupee note

D five-rupee coin

24. A rectangular field is 12 m long and 10 m wide. What is its **perimeter**?

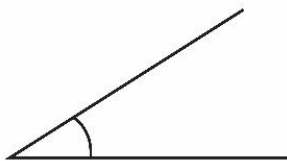

A 44 m

C 100 m

B 64 m

D 120 m

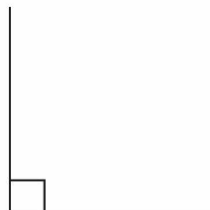

25. Which one of the following angles is **smaller** than a right angle?

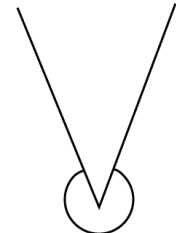

A

B

C

D

26. What is the **value** of  $4^3$ ?

A 12

C 34

B 16

D 64

27. What is 6 hundredths in **figures**?

A 0.6

C 0.006

B 0.06

D 6.0

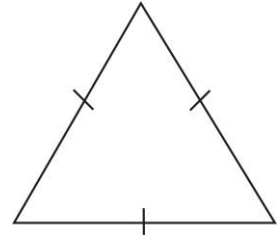

28. How many lines of symmetry does an **equilateral** triangle have?

**A** 1

**C** 3

**B** 2

**D** 4

29. (a) (i) Write  $48 : 12$  in its **simplest form**.

**Answer:** \_\_\_\_\_ [1]

(ii) In a box, the ratio of the number of mangoes to the number of bananas is  $4 : 5$ .

There are 36 mangoes in the box.

How many bananas are there?

**Answer:** \_\_\_\_\_ bananas [2]

(b) Rita has  $\frac{3}{4}$  m of lace. She gives  $\frac{1}{3}$  of it to Seema.

What is the length of lace which Seema receives? Give your answer in cm.

**Answer:** \_\_\_\_\_ cm [3]

30. Keshav has 250 drinking straws.

He makes bundles of 12 with them.

(a) How many bundles of 12 drinking straws can Keshav make?

**Answer:** \_\_\_\_\_ bundles [2]

(b) How many **more** drinking straws does Keshav need to make another bundle of 12?

**Answer:** \_\_\_\_\_ drinking straws [2]

31. (a) (i) Complete:

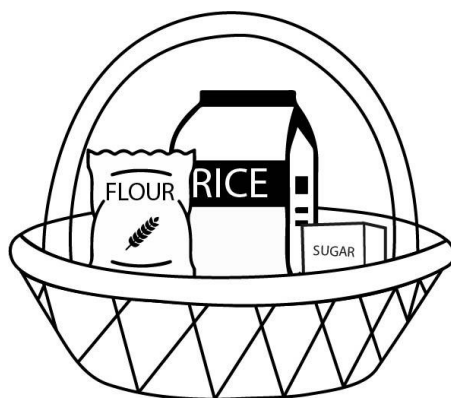

$$5 \text{ hundredths} + 3 \text{ tenths} + 4 \text{ units} = \underline{\hspace{2cm}} \quad [1]$$

(ii) Work out:

$$73.0 - 4.8$$

**Answer:**                      [1]

- (b) A basket containing a packet of rice, a packet of flour and a packet of sugar weighs 8.9 kg.

**8.9 kg**

Kenny **removes** the packet of rice from the basket.

The basket now weighs 5.4 kg.

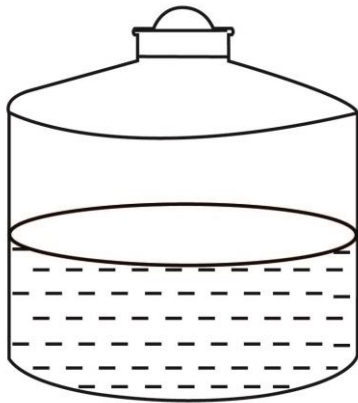

What is the mass of the packet of rice?

Give your answer in **grams**.

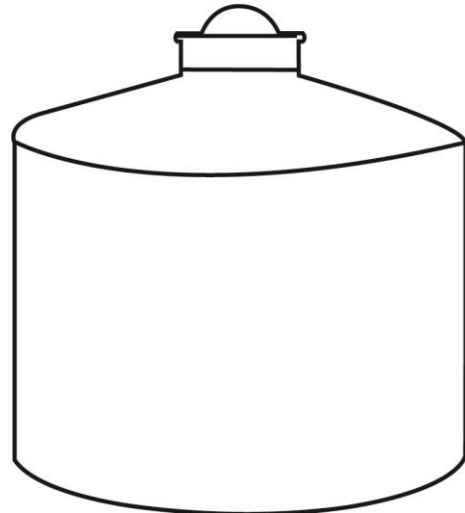

**Answer:**                      g

[3]

32.

**Tank A**

**Tank B**

**Tank A** has a capacity of 380 L. It is **half** full of water.

- (a) How much water does **Tank A** contain?

**Answer:** \_\_\_\_\_ L

[2]

- (b) **Tank B** has a capacity of 525 L when full.

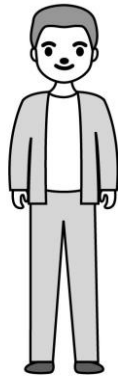

All the water in **Tank A** is transferred to **Tank B**.

How much **more** water must be added to **Tank B** so that it is **completely** full?

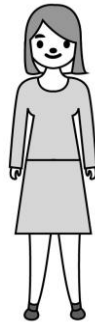

**Answer:** \_\_\_\_\_ L

[2]

33.

Kian

Ziya

Amira

Kian is 9 years old.

Ziya is 5 years **younger** than Kian.

Amira is 7 years **older** than Ziya.

Using the information given,

(a) Complete the table below

| Name  | Age             |
|-------|-----------------|
| Kian  | 9 years old     |
| Ziya  | ..... years old |
| Amira | ..... years old |

[2]

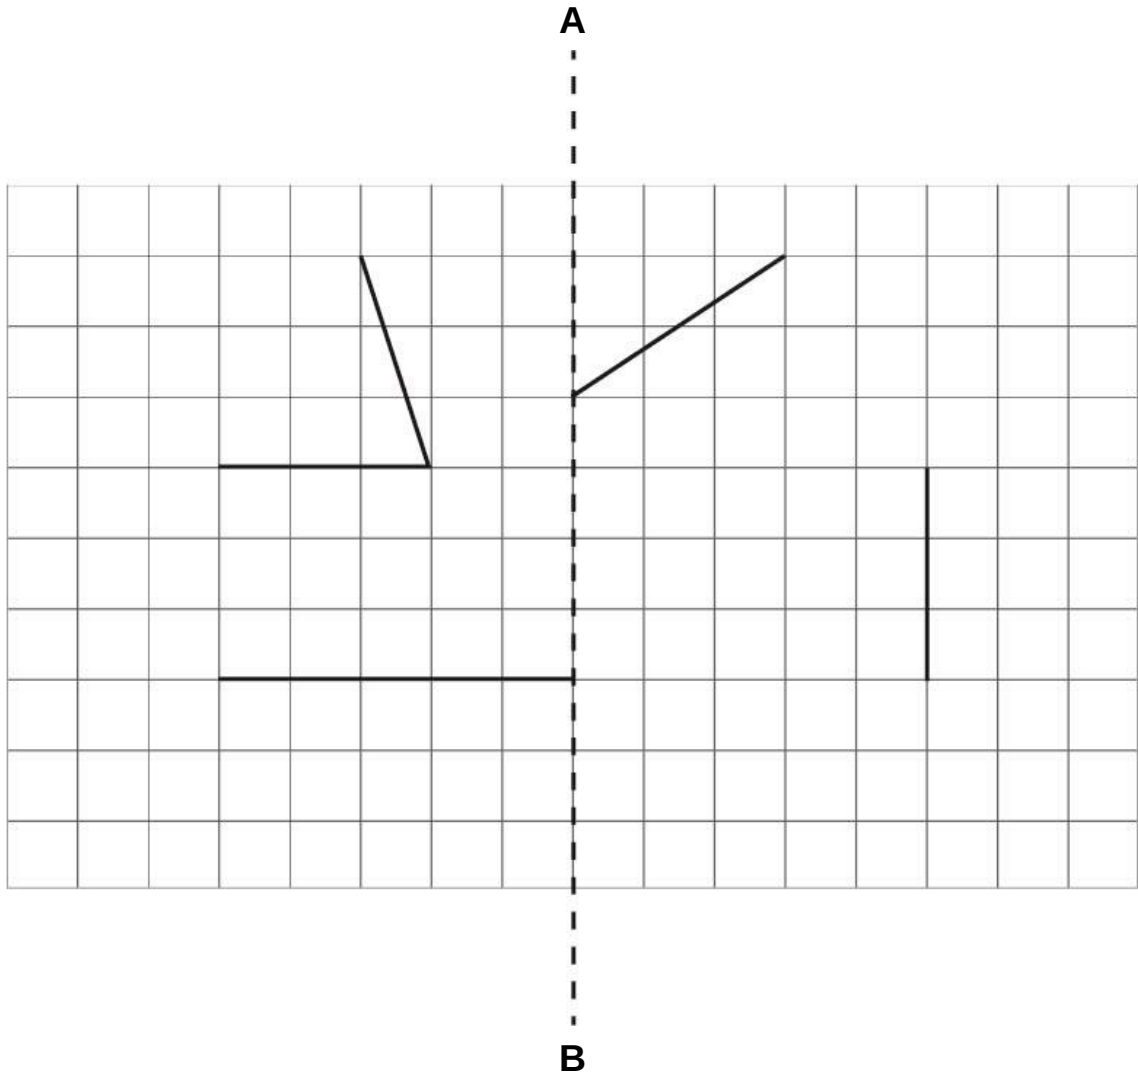

(b) Find the **average** age of the 3 children.

**Answer:** \_\_\_\_\_ years

[2]

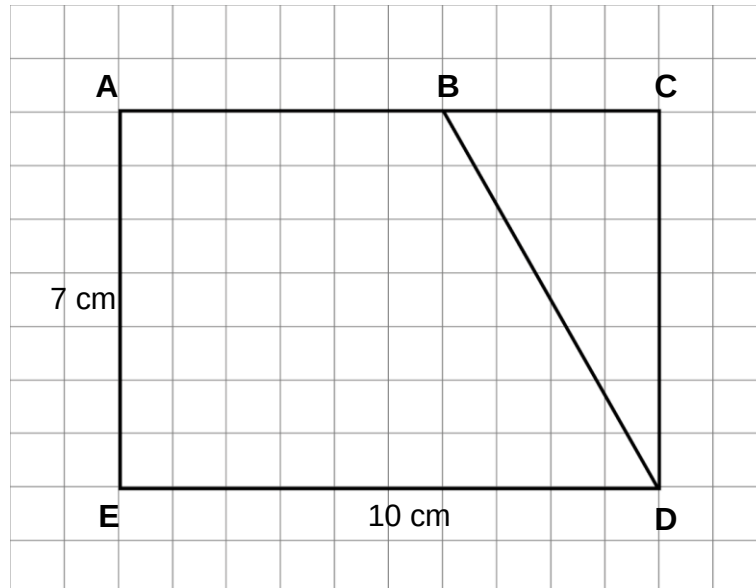

Section B (40 marks)

34. (a) Complete the figure below so that the dotted line **AB** is a line of symmetry.

[2]

- (b) On the grid below, **ACDE** is a rectangle and **BCD** is a triangle.

Each square on the grid is 1 cm by 1 cm.

- (i) Calculate the area of triangle **BCD**.

**Answer:** \_\_\_\_\_  $\text{cm}^2$

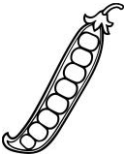

[2]

- (ii) Using your answer to part b(i), find the area of the shape **ABDE**.

**Answer:** \_\_\_\_\_  $\text{cm}^2$

[3]

35. The price of a few vegetables are given below.

| Name of vegetable                                                                         | Price per kg |
|-------------------------------------------------------------------------------------------|--------------|
| Carrots  | Rs 70.50     |
| Peas     | Rs 116       |
| Cabbage  | Rs 60        |

- (a) Find the cost of a cabbage weighing  $\frac{3}{4}$  kg.

**Answer:** Rs \_\_\_\_\_

[2]

- (b) Anna buys 2 kg of carrots and  $\frac{1}{2}$  kg of peas.

She pays with a five hundred rupee note.

Calculate the change she gets.

**Answer:** Rs \_\_\_\_\_

[4]

36. (a) In a school,  $\frac{2}{5}$  of the pupils are boys and the rest are girls.

Given that there are 324 boys in the school, calculate the **total** number of pupils in the school.

**Answer:** \_\_\_\_\_ pupils

[3]

- (b) A worker earns Rs 535 for 4 hours of work.

How much does the worker earn if he works for 12 hours?

**Answer:** Rs \_\_\_\_\_

[3]

37. The pictogram below shows the daily production of loaves in a bakery in a week.

The information for Sunday is missing.

|                  |                                                                                   |                                                                                   |                                                                                   |                                                                                   |                                                                                    |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |
